April 11, 2016

To whom it may concern:

Mr. Lloyd Attig was recently a workshop facilitator at BATC Atoskewin Success Centre. He presented on January 7, 2016 and then again on February 4, 2016. His presentation was called 'Exploring Health and Wellness'.

The workshop was centered on the traditional Medicine Wheel. Lloyd had a great visual example of a person's 'wheel'. For example, the visual showed if a person's wheel was out of balance and what areas of a person's life needed more work i.e spiritual, physical, mental etc. It was a great visual and easy to understand.

We had positive feedback from our students and staff regarding his presentation. I am confident that the students will apply what they learned from Lloyd's presentation to their everyday lives and healing journey in life.

I found Lloyd easy to work with, he was professional and respectful to the staff and students. He was also very personable and has great presentation/speaking skills.

Respectfully,

Elisha Opwam  
Manager  
Atoskewin Success Centre  
BATC Employment & Training
